Health and Medicine Resources

George Bergstrom  
Southwest Regional Coordinator  
Professional Development Office, ISL

# Agenda

- Overview of databases
- Resources for help with searching
- Sample Searches
- Questions

# Databases for Health and Medicine Research

- **Alt Health Watch** - This database focuses on the many perspectives of complementary, holistic and integrated approaches to health care and wellness.
- **Consumer Health Complete** - This database is a comprehensive resource for consumer-oriented health content, designed to support patients' information needs and foster an overall understanding of health-related topics. (multilingual interface available)
- **Health Source - Consumer Edition** - This database provides information on many health topics including the medical sciences, food sciences and nutrition, childcare, sports medicine, and general health.

# Databases for Health and Medicine (Cont.)

- **Biomedical Reference Collection: Basic** - Designed for doctors, research scientist, students, and clinical specialists this database provides access to over 100 journals in a variety of areas of medical study.
- **Health Source - Nursing/Academic** - This database provides scholarly full text journals focusing on many medical disciplines. It also contains AHFS Consumer Medication Information, which covers generic drug patient education sheets.
- **Psychology & Behavioral Sciences Collection** - A comprehensive database covering information concerning topics in emotional and behavioral characteristics, psychiatry & psychology, mental processes, and anthropology.

# Help with Searching

- **State Library Resources** - Continuing education page, many INSPIRE related webinars that cover basics of searching
- **EBSCO Tutorials** - they have tutorials for both basics of searching as well as many of the health and medical databases:
