HI EVERYONE!

**Wakelet with additional resources:**

<https://wke.it/w/s/L9oEFq>

- How to make a background or object lighter (more transparent)?
- How to make and print a two sided book mark?
- Free Pro account?
- Cool things to do with a Pro account:
  - Magic Resize
  - How to create an animation?
  - Brand Kit
  - Remove background
  - Make/export image with transparent background
- How to add a hyperlink
- Layers

- How can I download different fonts into Canva?
- How to modify templates and make them look good.
- Is it possible to save/create templates?
- Can you please explain ways to measure shapes and design elements in Canva? I know there is a Rulers and Guides feature, but if I need to make an 8 in x 4 in rectangle on a flyer, for example, it's difficult to measure exactly.
- How can I make a custom color palette?
- When importing your own picture how do you change the dimensions of the photo?
- How to change the sizing of fliers when making them.
